

Thank you for downloading this freebie!

I hope you love this resource as much as we do.

This is my new monthly series to make learning at home and in the classroom easier for you. I organize daily activities for you so students know what is expected each day. Additional months coming soon!

With the current situation of Covid-19, you may use this resource however you need with your students and families. You may upload in your virtual classroom and/or share via email as you need *with your students.*

Please do not file share with other teachers or on the open web as this is a violation of the DMA and my TOU.

You may direct other educators to purchase their own license.

# How To Use This Print & Teach Pack

It is so nice to have students on a schedule and routine so they know what to expect each day. This print and teach pack does just that!

These monthly packs create a routine that is easy to follow and there is almost no prep for you.

So many standards are covered each day in a spiraling format, so students do not constantly ask you for help and directions. They recognize the activities and the format every day. Once a week (every five days) a new standard is introduced that they may need assistance with, but then this stays the same for the entire week.

This builds their confidence and helps them master skills and standards quickly.

This FREE pack comes with 5 days

Day 1

## March

### My TASKS Today

Color the star when you complete each task.  
Let's work hard and learn a lot today!

<b>Primary Math</b> March 2 + 3 = 6 + 8 =	<b>Language Arts</b> March Copy to Copy Draw Me to Copy Copy Me to Copy Copy Me to Copy	<b>Reading Journal</b> Daily Read to Read Read to Read Read to Read
★	★	★
★	★	★

New months will have 20 days

Both school and home activities are included. Cut out and glue which tasks you want your student to complete each day. You can also handwrite an activity in each box or simply leave them blank. This makes it easy to differentiate for students or if you homeschool.

Students color the star when they complete the assignment. They fill up their stars each day.

Structured, standards based activities every single day! Teachers and students love this routine.

Day  
1

# March

## My TASKS Today

Color the star when you complete each task.  
Let's work hard and learn a lot today!

Cut out additional task cards and glue them on daily task pages.

You can differentiate for students, or if you're homeschooling you can also include household chores.

Leave these spots blank if you wish.

Students love to be able to see what assignments they must do each day, and they can color each star as they complete the task.

This makes it easy to keep your days structured.

## Helpful hint:

We are working on **CVC** words this month. In the phonics section, students are asked to write the **middle** and **last** sounds in these words.

A CVC word is a consonant-vowel-consonant spelling pattern. This means the vowel will make a short vowel sound. I point to each spelling box as I say each sound to help children segment the word.
